

Microsoft Worldwide Fulfillment Pricing
(July 2010)

● Indicates high usage parts.

School Districts can order fulfillment product components through the Microsoft World Wide Fulfillment (WWF) program. This type of software is a component only and does not include any actual license for the software. A school must first purchase the license under the Select Agreement before buying fulfillment components.

You may obtain your Product Key by contacting the Customer Service Center at 888-352-7140. Please be prepared to provide your Select Enrollment Number from your license. You should keep the Product Key secure and distribute it only to faculty and staff authorized to install and distribute licenses within your institution. Your institution will be held responsible for unauthorized use of your Product Key.
